INSTALL SCALEBRECK ELECTRONIC WATER CONDITIONER

ADVANTAGE OF SCALEBRECK

- Non-invasive
- Zero maintenance
- Electricity / power efficient
- Chemical free
- Water quality maintained post treatment
- Less cleaning time

SCALEBRECK will remove limescale deposits of:

- Piping systems
- Toilets
- Faucets
- Coffee makers
- Water heaters
- Tankless heaters
- Showersheads
- Humidifiers
- Dishwashers
- Washing machines
- Sinks
- Radiant heaters

Better Plumbing

Hard water contains a high concentration of minerals, namely calcium and magnesium. This causes a lot of deposit buildup over time; conversely, soft water has a much lower mineral content and can save you from significant hassle and a costly future repair.

Longer Lasting Appliances

Water heaters incur the most damage from lime buildup, and with an extra internal layer, they require more energy over time. SCALEBRECK removes lime scale deposits increasing the life of the appliance.

Extra Savings

Not only does SCALEBRECK save your pipes, but it also preserves your cleaning supply. Whether you're using shampoo, bleach scrub or laundry detergent, soft water households tend to use much less soap than homeowners with hard water.

Less buildup means less time spent scrubbing, and it limits the amount of harsh chemicals you send down your drain.

SCALEBRECK

ELECTRONIC WATER CONDITIONER

Single cable wrapped around pipe produces a square wave alternating at 1000 to 20000 cycle/sec

Complex modulated signal field at variable frequency - induces electrical field in the pipe which alter the hard water ions and increases their solubility

Incoming water containing calcium and other mineral ions in solution

Modulated signal from converter at only ± 12 Volts DC

Conditioned water can absorb more calcium and dissolve existing scale

PRODUCT SPECIFICATIONS

Components

Each model comprises of a Scale Breck unit, signal cable, ties, plugs and clear instructions.

Materials

Electronics hermetically sealed. Enclosures for indoor use are made of high grade thermoplastic or fabricated as per design. Enclosures for outdoor use are made weatherproof.

Controls & Indicators

All units have indicators showing correct operation, providing power applied and signal coil connected.

Reliability

Only high quality electronic components are utilized, including a custom designed chip (IC) controlling signal generation processing. Components have a life span of over 20 years.

Safety

The Scale Breck conforms to electrical safety standards. The electronics are sealed with resin. The output is safe to both personnel and sensitive equipment. There is no electrical contact between pipe and coil. The low output voltage is non-hazardous.

Power

Units can be connected to either 110 VAC or 230 VAC 50/60 Hz. Optional: Solar power or 24 Volt direct current.

NO
CHEMICALS

NO
MAINTENANCE

ONE TIME
INVESTMENT

EXCELLENT
RETURNS

- NO OPEN COILS
- NO HANGING WIRES
- NO OBSTRUCTIONS TO THE FLOW
- NO PRESSURE LOSSES.
